The Paradise Mines.

From Superintendent McCurdy, of the Paradise Valley Mining Company, the Silver State learns the following relative to the ore body in the Wild Goose mine. In drifting north on what the miners call the 70 foot level, that is 70 feet above the upper tunnel, and 280 feet below the surface and 30 feet north of the large chimney of ore which has been worked for the past five years, the new chimney of ore was found. The ore at taken out will average about \$100 to the ton and runs high in gold. The drift is in 28 feet on the ore body. The vein in the face is about 7 feet wide, and there is quartz in the foot-wall which has not been cut in drifting, that may still further increase the width of the vein. The south ore body above the upper tunnel is also looking well, and the ore is of a good grade and millable higher than was expected. Altogether the outlook is very promising. The mill is now running and regular shipments of concentrates will be made.

A Good Appointment.

The Eureka Sentinel correctly remarks that James O. Gregory, of Wadsworth, has been appointed Agent of the Walker Lake Indian Reservation. This is a first-class appointment. Jim Gregory has been ranching near the Pyramid Reservation for nearly 30 years and knows more about the Plutes than any man in the State. He is, withal, a great favorite with them. As an up and up every day, all round honest man, Jim Gregory has no superior under the sun. We know him from way back.

Card of Thanks.

The Southern Pacific railroad men, associates of the late A. B. Handy, who lost his life by a fall from a freight car, desire to express their gratitude to those who so kindly contributed their services during the last hours of the life of their companion. Especially do they wish to thank Mr. Dickey and family, who carried deceased to their house and used all efforts to render him comfortable until the arrival of the surgeon.

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. STATE NORMAL SCHOOL.

Supt. Dovey's Tribute to the State Normal School.

In his biennial report Supt. of Public Instruction Dovey says of the State Normal School:

Section 5, Article IX, of the Constitution of Nevada empowers the Legislature to establish Normal Schools, and such other schools from the primary grade to the University, as, in their discretion, they may deem necessary, yet nearly twenty-three years elapsed before any legal provision was made to comply with the requirements of the Constitution in reference to Normal Schools. The Thirteenth Session of the Legislature passed an Act entitled: "An Act Relating to the State University and Matters Properly Connected Therewith," approved February 7, 1887, which provides that there shall be established in the State University a school for the instruction of teachers, at which shall be taught all the branches of instruction which are taught in the common schools of this State. The Act authorized the Regents of the University "to appoint a President of the University, who shall have a diploma from some recognized college of learning of good standing, or [from] some State Normal School, who has had at least five years of practical experience as an instructor; who is familiar with the modern methods of imparting instruction, generally approved in the United States," and "to require the President, under the direction of the Board, to establish and maintain training or model schools, and require the pupils of the University to teach and instruct classes therein," thus, by this Act, especial prominence is given to the Normal School Department of the University.

In obedience to this requirement, the Regents appointed Hon. LeRoy D. Brown, Commissioner of Common Schools, Ohio, who produced abundant evidence of his legal qualifications for the position. Immediately upon the opening of the Fall term, President Brown assumed personal charge of that department and organized a class in pedagogy.

From the beginning this class has been conspicuous for its numbers, talent and progress. The rapidly increasing enrollment of the students rendered it impossible for Mr. Brown, with his many other duties, to carry on the training school as required by law. The Board of Regents sought for, and were exceedingly fortunate in procuring the services of the talented and able normal teacher, Miss Kate N. T. Tupper, who was placed in charge of the training school at the commencement of the Fall term in 1888. A large room in the University was beautifully fitted up and provided with all the furniture and apparatus necessary in a first-class model school room. Twenty-five children of Reno of proper age were admitted as members of the model class and twenty-seven young ladies enrolled as members of the training class, to which additions have since been made. The normal class has exhibited great zeal and enthusiasm in its work. Considering all the circumstances it would be difficult to find a similar institution that has received such prompt and hearty support and patronage. Miss Tupper's success exceeds expectation, and she has proven herself a master spirit in the art and science of instruction, and has already shown that her reputation rests upon merit. Thus to the honor of the Legislature and to the honor of the State, is firmly established the State Normal School of Nevada. Its future is destined to be bright and of inestimable value in promoting the cause of new education in our midst. In behalf of the Nevada State Normal School, so long needed, yet so long deferred, we invoke the fostering care of the Legislature, the hearty support and patronage of the public, and confidently hope that its graduates will receive a cordial welcome and ready employment at the hands of the school boards of the State.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Feb. 21—aw 1-1

What Am I to Do?

The symptoms of biliousness are unhappily but too well-known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred it is rough at all events.

The digestive system is wholly out of order and diarrhoea or constipation may be a symptom or the two may alternate. There are often Hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flower, it costs but a trifle and thousands attest its efficacy.

Beautiful Ice Effect.

The Truckee Republican says: This section produces in the Winter time some beautiful snow and ice scenes, not to be found in any other portion of the State. A specimen scene can be observed in the rear of the box factory where there is a huge mass of ice formed from the water from the waste-way. It is a mass of ice fifteen feet high, fluted and seamed and wrought into many fantastic forms. It should be seen to be appreciated.

He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.
